BSc.Eng.(Hons) Computer Science and Engineering University of Moratuwa, Sri Lanka

OBJECTIVE

Computer Science and Engineering undergraduate at the University of Moratuwa with hands-on experience in full-stack and mobile application development. Skilled in building scalable, efficient, and user-friendly software solutions using modern technologies and frameworks, following software engineering principles. Strong interest in Software Engineering, Mobile Application Development, AI-driven systems, and Data Engineering, with a focus on problem-solving and continuous technical growth.

WORK EXPERIENCE

- **KeenMind Mobile Solutions (Pvt) Ltd**  Dec 2024 – June 2025
Software Engineer (Internship) Panadura, Sri Lanka
 - Developed Flutter mobile application features and integrated .NET backend APIs to deliver business requirements.
 - Implemented responsive UI components, performed debugging, and collaborated with senior engineers in an Agile development environment.
- **KeenMind Mobile Solutions (Pvt) Ltd**  June 2025 – Present
Software Engineer (Part-Time) Panadura, Sri Lanka
 - Developing and maintaining production-level Flutter applications integrated with .NET backend services.
 - Working in Agile teams to deliver scalable features, improve application performance, and integrate AWS-based services for backend functionalities and communication workflows.

EDUCATION

- **University of Moratuwa** 2022 - Present
Undergraduate, BSc Eng Hons, Computer Science and Engineering Katubedda, Sri Lanka
 - GPA: 3.43/4.00
 - Minor in Mathematics
- **Ku/ Maliyadeva college** 2018 - 2020
GCE Advanced Level Kurunegala, Sri Lanka
 - Z-score: 2.2422 | Physics Stream | 3A
 - Island Rank: 443
- **Ku/ Maliyadeva college** 2007 - 2018
GCE Ordinary Level Kurunegala, Sri Lanka
 - 9A

PROJECTS

- **Advanced Wireless CSI Sensing for Enhanced Recumbent Position Monitoring (FYP)** Jul 2025 – Present
WiFi CSI | ESP32 | Machine Learning | Signal Processing | Flutter | Node.js | Python | Kotlin | Wear OS   
 - Designed a privacy-preserving IoT-based monitoring system using Wi-Fi Channel State Information (CSI) to detect presence, posture, respiration rate, and heart rate without wearable devices or cameras.
 - Developed an end-to-end system integrating ESP32-based CSI data collection, machine learning models, signal processing pipelines, and real-time monitoring components for visualization and analytics.
 - Built a Wear OS subsystem using Android Health Services API to collect ground-truth heart rate data, stream measurements to a Python backend, and support model validation through reliable real-time data acquisition.
 - Collected and processed CSI data from multiple participants and implemented machine learning models including KNN, SVM, Random Forest, and Extra Tree Regressor for classification and regression tasks.
 - Developed a Flutter-based mobile health monitoring application using WebSocket, Node.js, and Firebase Firestore for real-time visualization, low-latency data streaming, and storage of physiological data.
- **Microservices-Based Online Shopping Platform** 2026
Spring Boot | Spring Cloud | Kafka | MySQL | MongoDB | React | Docker 
 - Designed and developed a microservices-based e-commerce system with separate Product, Order, Inventory, and Notification services to ensure scalability and modularity.
 - Implemented RESTful APIs using Spring Boot and Spring Cloud, enabling service discovery, inter-service communication, and fault-tolerant architecture.

- Integrated MySQL for transactional data and MongoDB for flexible, high-performance document storage, improving data handling efficiency.
- **QuickMed – Pharmacy Locator Mobile Application** 2025
React Native | JavaScript | NodeJS | Firebase (Auth, Firestore) 
 - Developed a mobile application to locate nearby pharmacies using optimized search and structured data handling.
 - Implemented secure user authentication and real-time database management using Firebase Authentication and Firestore.
 - Designed responsive UI components and integrated backend services to ensure smooth user experience.
- **TrashTrade – Recyclable Materials Trading Mobile Application** 2025
Flutter | .NET | MySQL | JWT Authentication | AWS
 - Developed a mobile platform for trading recyclable materials, promoting structured and efficient waste exchange.
 - Built Flutter-based mobile UI with responsive design and smooth user interaction flows.
 - Implemented RESTful APIs using .NET with JWT-based authentication and authorization for secure access control.
- **E-Calendar Web Application (5th semester)** 2024 Jul - 2024 Nov
ReactJS | NodeJS | ExpressJS | MongoDB | Tailwind CSS 
 - Developed a digital calendar system to manage events and schedules with a user-friendly web interface.
 - Designed responsive frontend using ReactJS and Tailwind CSS for improved usability across devices.
 - Implemented backend services with NodeJS and ExpressJS, and structured MongoDB schema for efficient event management.

SKILLS

- **Programming Languages:** JavaScript, Python, TypeScript
- **Frameworks and Libraries:** React, React Native, Flutter, ASP.NET Core, Spring Boot, Tailwind CSS, Express.js
- **Database Systems:** MySQL, MongoDB
- **DevOps & Version Control:** Git, GitHub, Bitbucket, Docker, CI/CD
- **Specialized Area:** Frontend Development, Backend Development, Mobile App Development, Databases
- **Cloud Technologies:** AWS, Firebase
- **Streaming Technologies:** Kafka

VOLUNTEER EXPERIENCE

- **SLIOT Challenge Committee Member** 2024
Department of Computer Science & Engineering 
 - Contributed to planning and coordination of the SLIOT Challenge
 - Assisted in event organization, logistics, and participant management
- **Safety and Security committee - Department Coordinator** 2023
EXMO 23 
 - Ensured safety and security protocols during the event
 - Coordinated with team members to manage crowd control and emergency readiness

PROFESSIONAL MEMBERSHIPS

- **IESL (Student Member)** , Membership ID: S-30344 2025 - Present
- **IEEE Club, University of Moratuwa** , Membership ID: 24v0357 2024 - 2025

CERTIFICATIONS

- **HTML, CSS, and JavaScript for Web Developers - Johns Hopkins University (Coursera)** June 2024
- **React basis - Meta (Coursera)** June 2024

ADDITIONAL INFORMATION

Languages: Sinhala, English
Interests: Travel, Cricket, Art
