BSc.Eng.(Hons) Computer Science and Engineering University of Moratuwa, Sri Lanka

OBJECTIVE

Computer Science and Engineering undergraduate at the University of Moratuwa with a strong foundation in full-stack and mobile application development, complemented by hands-on industry experience. Skilled in modern technologies and frameworks, with a focus on building efficient, scalable, and user-friendly software solutions. Passionate about problem-solving and continuous learning, with strong interests in Software Engineering, Mobile Application Development, AI-driven Solutions, and Data Engineering.

WORK EXPERIENCE

- **KeenMind Mobile Solutions(Pvt) Ltd**  Dec 2024 - June 2025
Software Engineer (Internship) Panadura, Sri Lanka
 - Built Android mobile applications using Flutter, integrated with .NET backend services to deliver end-to-end features.
 - Developed core application components and enhanced UI responsiveness to improve performance and user experience.
 - Designed and integrated RESTful APIs using clean architecture principles to ensure scalability and maintainability.
 - Collaborated with cross-functional teams to integrate new modules and refine application workflows, improving user engagement.

EDUCATION

- **University of Moratuwa** 2022 - Present
Undergraduate, BSc Eng Hons, Computer Science and Engineering Katubedda, Sri Lanka
 - GPA: 3.43/4.00
 - Minor in Mathematics
- **Ku/ Maliyadeva college** 2018 - 2020
GCE Advanced Level Kurunegala, Sri Lanka
 - Z-score: 2.2422 | 3A
 - Island Rank: 443
- **Ku/ Maliyadeva college** 2007 - 2018
GCE Ordinary Level Kurunegala, Sri Lanka
 - 9A

PROJECTS

- **Microservices-Based Online Shopping Platform** 2026
Spring Boot | Spring Cloud | Kafka | MySQL | MongoDB | React | Docker 
 - Architected and developed a scalable microservices-based e-commerce platform with independent Product, Order, Inventory, and Notification services
 - Implemented RESTful APIs using Spring Boot and Spring Cloud, ensuring loose coupling, service discovery, and fault tolerance
 - Integrated MySQL for transactional data and MongoDB for high-throughput, flexible document storage
 - Optimized read/write performance through appropriate database selection and service-level separation
- **Real-Time Heart Rate Monitoring Wear OS App** 2025
Kotlin | Android Health Services API | Wear OS | Python | Android Studio 
 - Developed a real-time heart rate monitoring system on Samsung Galaxy Watch 7 using the Android Health Services API to acquire accurate heart rate data.
 - Automated data collection by streaming real-time heart rate measurements to a Python server, addressing the challenge of manual ground-truth recording and eliminating time-consuming, error-prone counting.
 - Implemented callback-based data processing to filter, validate, and ensure consistent heart rate measurements for reliable analysis in the final-year project.
- **Real-Time Health Monitoring Mobile Application** 2025
Flutter | Node.js | WebSocket | Firebase Firestore | Render | Python | Android Studio 
 - Designed and implemented a WebSocket-based data pipeline to stream live health data from a Python client to a Node.js backend, enabling low-latency communication.
 - Integrated Firebase Firestore for efficient storage and retrieval of real-time and historical health data for analysis.

- Deployed backend services on Render, ensuring reliable real-time data delivery in a cloud-hosted environment.
- **QuickMed – Pharmacy Locator Mobile Application** 2025
React Native | JavaScript | NodeJS | Firebase (Auth, Firestore) [🌐]
 - Designed and developed a mobile application to help users quickly locate nearby pharmacies
 - Implemented real-time pharmacy search with optimized data handling and offline caching
 - Developed end-to-end application including UI, business logic, and backend integration
 - Integrated Firebase Authentication and Firestore for secure user management and cloud-based data storage
- **TrashTrade – Recyclable Materials Trading Mobile Application** 2025
Flutter | .NET | MySQL | JWT Authentication | AWS
 - Designed and developed a mobile platform to facilitate trading of recyclable materials and promote sustainable waste management
 - Built a responsive Flutter-based mobile UI with smooth animations
 - Developed RESTful backend APIs using .NET for secure and efficient client-server communication
 - Implemented JWT-based authentication and authorization for protected endpoints
- **E-Calendar Web Application (5th semester)** 2024 Jul - 2024 Nov
ReactJS | NodeJS | ExpressJS | MongoDB | Tailwind CSS [🌐]
 - Developed a digital e-Calendar system to replace traditional printed diaries used within a banking environment
 - Designed and implemented the frontend interface with a focus on usability and responsive design
 - Designed the database schema for efficient event storage, retrieval, and management

SKILLS

- **Programming Languages:** JavaScript, Python, TypeScript
- **Frameworks and Libraries:** React, React Native, Flutter, ASP.NET Core, Spring Boot, Tailwind CSS, Express.js
- **Database Systems:** MySQL, MongoDB
- **DevOps & Version Control:** Git, GitHub, Bitbucket, Docker
- **Specialized Area:** Frontend Development, Backend Development, Mobile App Development, Databases
- **Cloud Technologies:** AWS, Firebase
- **Streaming Technologies:** Kafka

VOLUNTEER EXPERIENCE

- **SLIOT Challenge Committee Member** 2024
Department of Computer Science & Engineering [🌐]
 - Contributed to planning and coordination of the SLIOT Challenge
 - Assisted in event organization, logistics, and participant management
- **Safety and Security committee - Department Coordinator** 2023
EXMO 23 [🌐]
 - Ensured safety and security protocols during the event
 - Coordinated with team members to manage crowd control and emergency readiness

PROFESSIONAL MEMBERSHIPS

- **IESL (Student Member)** , Membership ID: S-30344 2025 - Present
- **IEEE Club, University of Moratuwa** , Membership ID: 24v0357 2024 - 2025

CERTIFICATIONS

- **HTML, CSS, and JavaScript for Web Developers - Johns Hopkins University (Coursera)** June 2024
- **React basis - Meta (Coursera)** June 2024

ADDITIONAL INFORMATION

Languages: Sinhala, English
Interests: Travel, Cricket, Art
